BIM Designer (m/f/d)

Description

Huber car park systems international GmbH and HIB Huber Integral Bau GmbH are two general contractors in the car park industry with a total of approx. 150 employees. We design, finance, build and operate multi-storey car parks in one-stop-shop fashion. Together we have completed more than 300 projects in Germany and neighbouring European countries. We also manage different independent companies in the car park operating industry.

At HUBER component-supported three-dimensional construction design has been implemented for some time. In cooperation with our specialty planners our designers create complex interdisciplinary BIM-models and thus deliver building information far exceeding regular 2D or 3D designs.

To support our BIM design team, we are offering a permanent fulltime position for a motivated and committed

BIM Designer (m/f/d)

Responsibilities

You support us in the area of design stage 5, i.e. shop drawing, covering a very extensive field of activity, e.g.:

- Complete project design from receipt of contract to handover to client
- Coordination with the specialty planners involved in the project as well as the project team
- Consultation and coordination of the model-based information exchange between specialty planners
- Active participation within the team to further develop in-house BIM application

Qualifications

- You have a university degree in architecture or civil engineering or you are a technician or a draftsman with sufficient work experience
- Ideally you have good software knowledge in REVIT and AutoCAD. Solid working knowledge in similar software such as Allplan will also be considered
- Experience in steel and industrial construction is advantageous
- You have good technical instincts and relevant know-how to implement the designs in detail
- Working independently and in a well-organized manner are a matter of course for you and you are absolutely reliable
- You are able to multitask and you enjoy mastering a wide variety of tasks
- You think on your feet and enjoy complementing our team with your skill set
