Practical Internship for Students in Civil Engineering

Description

We offer interested and motivated **students (m/f/d)** the opportunity to carry out their practical internship (16 weeks, extension desired) as support of our site and project managers both in Germany and in the UK. Good English skills are essential for a stay abroad.

Qualifications

- Combination of academic studies and hands-on experience
- Involvement in all processes: production planning, site management, cost accounting
- Independent work with a certain degree of responsibility
- Exciting future job prospects

Job Benefits

HUBER is convinced, that solid training is the foundation for a successful future. Therefore, we offer all trainees the opportunity to gather fundamental practical work experience. The immediate involvement in all processes on site or in the design phase is a given with HUBER.
